AUTHOR INDEX 8893

SUBJECT INDEX 8908

PUBLISHED BY THE AMERICAN GEOPHYSICAL UNION

MAJOR HEADINGS OF THE SUBJECT INDEX

	Page
Solar Physics and Astrophysics	8908
Planetology	8909
Particles and Fields in Interplanetary Space	8912
Particles and Fields in Earth's Magnetosphere	8915
Particles and Fields in the Ionosphere	8927
Aeronomy	8934
Meteorology	8938
Hydrology	8941
Oceanography	8942
Geomagnetism and Paleomagnetism	8944
Geodesy and Gravity	8945
Geochemistry	8946
Physical Properties of Rocks	8948
Volcanology	8949
Tectonophysics	8950
Seismology	8951
Information Related to Geologic Time	8953
Information Related to Geographic Regions	8953
General or Miscellaneous	8954
Corrections	8954

SUBJECT INDEX

SOLAR PHYSICS AND ASTROPHYSICS

CORONA

Hundhausen, A.J.	Nonlinear model of high-speed solar wind streams	10 152
Lanzerotti, L.J.	Coronal propagation of low-energy solar protons	19 394
Callahan, P.S.	Plasma column changes at small solar elongations	20 433

ELECTROMAGNETIC RADIATION

Bertaux, J.L.+	Interpretation of Ogo 5 Lyman alpha measurements in the upper geocorona	1 8
Roble, R.G.+	Is there enough solar extreme ultraviolet radiation to maintain the global mean thermospheric temperature?	1 24
Lincoln, J.V.	Geomagnetic and solar data	1 33
Lincoln, J.V.	Geomagnetic and solar data	4 78
Vidal-Madjar, A.+	Solar Lyman alpha changes and related hydrogen density distribution at the earth's exobase (1969-1970)	7 111
Allen, K.H.+	Broad band solar EUV absorption in the earth's upper atmosphere (L)	7 121
Lincoln, J.V.	Geomagnetic and solar data	7 124
Lincoln, J.V.	Geomagnetic and solar data	7 124
Lincoln, J.V.	Geomagnetic and solar data	10 173
Lincoln, J.V.	Geomagnetic and solar data	13 237
Heath, D.F.	Space observations of the variability of solar irradiance in the near and far ultraviolet	16 277
Walbridge, E.	Lunar photoelectron layer	19 366
Lincoln, J.V.	Geomagnetic and solar data	19 400
Gulbrandsen, A.	Relation between coronal λ 5303 intensity, recurrent geomagnetic storms, and solar sector structure (L)	22 478
Rufenach, C.L.	Radio scintillation on stellar signals during artificial ionospheric modification	25 561
Swartz, W.E.+	Incompatibility of solar EUV fluxes and incoherent scatter measurements at Arecibo	25 564
Breig, E.L.	Aeronomic consequences of solar flux variations between 2000 and 1325 angstroms	25 571
Lin, R.P.	Interplanetary-particle associations with type III solar bursts (D)	28 682
Graedel, T.E.+	Interplanetary-particle associations with type III solar bursts (R)	28 682
Lincoln, J.V.	Geomagnetic and solar data	28 683

FLARES

Pyle, K.R.	Propagation anisotropies of solar flare protons and electrons at low energies in interplanetary space	1 1
Maurer, R.H.+	Pitch angle distribution of solar flare particles in interplanetary space	1 29
Lupton, J.E.+	Solar flare particle propagation: Comparison of a new analytic solution with spacecraft measurements	7 1007
Innanen, W.G.+	Anisotropies in the interplanetary intensity of solar protons E_p > 0.3 Mev	7 1013
Simnett, G.M.	Azimuthal propagation of low-energy solar-flare protons (D)	7 123
McKibben, R.B.	Azimuthal propagation of low-energy solar-flare protons (R)	7 123
Sastry, T.S.G.	Daily variation of geomagnetic field at the Indian stations under the electrojet during the period of the July 1966 proton flare	10 1692
Gosling, J.T.+	Anomalously low proton temperatures in the solar wind following interplanetary shock waves--Evidence for magnetic bottles?	13 2001
De Young, D.S.+	Simulation of driven flare-associated disturbances in the solar wind	19 3632
Lanzerotti, L.J.+	Abundance of solar cosmic ray alpha particles	19 3935
Lanzerotti, L.J.	Coronal propagation of low-energy solar protons	19 394
Fleischer, R.L.+	Mechanical erasure of tracks: Tool for lunar microstratigraphic chronology	23 484
Walton, J.R.+	He and Ne cross sections in natural Mg, Al, and Si targets and radionuclide cross sections in natural Si, Ca, Ti, and Fe targets bombarded with 14- to 45-Mev protons	28 6425
Lin, R.P.	Interplanetary-particle associations with type III solar bursts (D)	28 682
Graedel, T.E.+	Interplanetary-particle associations with type III solar bursts (R)	28 682
McKibben, R.B.	Azimuthal propagation of low-energy solar flare protons: Interpretation of observations	31 7183
Duggal, S.P.+	Anisotropies in relativistic cosmic rays from the invisible disk of the sun	31 7202
Mathews, T.	Solar flare cosmic ray increase of August 7, 1972 (L)	31 7537
Lanzerotti, L.J.+	Rise time to maximum flux of relativistic solar electron events and its relation to the high-frequency component of the interplanetary field power spectrum	34 7980
Rao, U.R.+	Propagation anisotropies of solar flare protons and electrons at low energies in interplanetary space (D)	34 8409

GAMMA RAY ASTRONOMY

Klumpar, D.M.+	Energy spectrum and flux of 3- to 20-Mev neutrons and 1- to 10-Mev gamma rays in the atmosphere	34 7959

MAGNETIC FIELDS

Wallis, M.K.	Single-fluid model of the distant solar wind (L)	16 3155

belof, E.C.+	Analysis and synthesis of coronal and interplanetary energetic particle, plasma, and magnetic field observations over three solar rotations	25 5375
